RE: Family Medical Leave Act
DATE: March 24, 2010

The Family Medical Leave Act (FMLA) was updated by Congress in January 2009. Pursuant to this new legislation, FMLA leave can be taken concurrently with any accumulated paid leave of an employee and an employer can request the medical provider of the employee to fill out the enclosed form, Section III, Part A and B.

Pursuant to the same FMLA statute, please return this form to the school district within 15 days of you receiving it.

Should you have any additional questions, please feel free to call me.
